**Concluding remarks:**

In 2022-2023 the THE plans to organise further events on the relevance of sociological theory in contemporary society. As the upcoming years 2022/2023 will be the third and final year of our tenure, we will begin recruiting the next convenors for the study group.

The THE agreed with the New Materialisms group to alternate turns organising the theory stream plenary speaker and theory sessions at the annual conference. This arrangement should be revisited with the new convenors and updated as needed.
